

# X-Ray Laser Alignment

## XLS - X-ray Laser Sight

- IEC/CFR Certified Class 1 Laser Product
- Accurate at any distance or angle
- No obstructions to the x-ray beam
- No moving parts
- Machined aluminum construction
- Durable black anodized finish
- Average 10,000 hour laser life

- Mounts directly to the x-ray tube
- Many mounting adaptors available
- Optional remote power switch
- One year parts and labor warranty

### CLASS 1 LASER PRODUCT

WAVELENGTH: 635nm  
MAX EMISSIONS: 165  $\mu$ W

IEC 60825-1: 2007 / 21CFR1040.10

The XLS uses two industrial line-generating Class 1 lasers to project a factory aligned cross-hair target. The intersection of the lasers precisely indicates the center of the cone of radiation. The XLS mounts directly to your x-ray tube with the appropriate mounting adaptor.
